Only comments so far are from Carl and Martin. I will forward email from Martin as well.

I let Carl know that I did not think there was a follow up item on PPG flexibility after it was discussed. It sounded like all of the states that spoke up (with the exception of WY) were taking advantage of the PPG flexibilities. It also sounded like there were some constraints based on state legislatures not linked to PPGs.

I made a few additions in RLSO. I thought there was an action item around PPA flexibilities (talked about earlier, not during Doug's wrap up), but my notes aren't very clear.
